STACEY M. CONSTANTE

Stacey, first generation Ecuadorian born in the U.S. As the founder of "**The Nourished Goddess**", she merges ancient wisdom and modern medicine to guide women in restoring balance while re-connecting with the rhythms of their menstrual cycles. She creates a safe and nurturing space where others can rediscover their own healing abilities.

Stacey is a Nurse, Clinical Nutritionist, Hormone Specialist, Mother, Menstrual Cycle Educator, Herbalist, and Medicine Guardian.

After a decade of working in the medical field, she became aware of the limitations of conventional medicine. Her personal healing journey led her to a decade of working alongside wisdom keepers. Rooted in Andean traditions and Fuego Sagrado de Itzachilatlan lineage, she serves as a guardian of a sacred medicine in South America and Moon Pipe Carrier. She also carries a lineage of healing through her grandmothers, traditional herbalists who worked with plants, food, and the elements as medicine.

As the founder of "**Alas Unidas Retreats**", she has created a platform for wisdom keepers to share their ancestral medicine while supporting land conservation and the preservation of ancient traditions. She also serves as the health specialist for "**Seven Retreats**" in Peru, working alongside elders and teachers.
